## How to make:

1. Cut a 5½" x 7" panel of ivory cardstock. Fold the panel in half to create a card base. Cut a 5¼" x 3¼" panel of the pearl texture from the Charcoal Opulent Cardstock Pack. Center and adhere the charcoal panel to the front of the card base.
2. Cut a 3" x 5" panel from ivory cardstock. Stamp a calligraphy style design where desired on one side of the panel with Vintage Photo ink.
3. With the Blending Tool, ink the corners of the panel with Vintage Photo ink. Apply the ink lightly in a circular motion, starting on the craft mat and working the blending sponge towards the corners of the panel.
4. Apply Chipped Sapphire ink directly to a craft mat. Spray with water and dip a palette knife into the ink. To achieve a splatter effect on the ivory panel, hold the palette knife handle with one hand and hold the tip of the knife between a thumb and forefinger. Pull the tip back and release it to splatter ink onto the surface of the ivory panel where desired. Repeat until a splatter effect of choice is achieved. Set aside to dry.
5. Once dry, center and adhere the inked panel to the charcoal panel on the card front with double-sided adhesive.
6. Cut a 2 ¼" x 4 ¼" panel from ivory cardstock. Stamp a calligraphy style design where desired on one side of the panel with Vintage Photo ink. Emboss the small ivory panel using the Swirls Embossing Folder. Apply Rose Gold Luster Wax along the embossed edges of the ivory panel.
7. On the back of the embossed panel, apply foam tape. Then align and adhere the panel near the bottom, right-hand corner of the larger ivory panel on the card front. Leave about a ¼" between the panel and the edges of the larger ivory panel.
8. Die-cut out of black cardstock one man, one woman and two different umbrella designs from The Park die set.
9. Where desired, apply Silver or Rose Gold Luster Wax to the top of the black die cut elements. Lightly rub the wax over the die cuts and keep applying wax lightly until a desired effect is achieved.
10. Arrange the man, woman and umbrellas into a desired placement above the ivory panels on the card front and adhere the elements into place with foam tape.
11. Stamp a sentiment phrase in black ink on a mid-tone gray cardstock. Trim around the sentiment as desired, cutting between words to create individual panels for each word. Adhere the sentiment to the card front where desired with foam tape.
